

RETAIL DISPLAY BOOSTS SELLING POWER!

Display Socket Trays near the hand tools – display takes up just three square feet of shelf space – and watch 'em ring up sales! They practically sell themselves! You'll be showing and selling the industry's most popular toolbox accessory – Hansen Socket Trays.

Part No. 9910

SAE Sizes, Red ABS
Metric Sizes, Gray ABS

Socket trays come in SAE and Metric sizes for 1/2", 3/8" or 1/4" drives. They're molded of rugged ABS plastic to shrug off lubricants, solvents and abuse. Display holds four trays in each of the three SAE sizes and three Metric sizes.

HANSEN HEX/TORX TRAY

Hex/Torx Tray helps automotive technicians instantly find the socket or bit they need. Tray holds SAE hex socket sizes 1/8, 9/64, 5/32, 3/16, 7/32, 1/4, 5/16 and 3/8", Metric sizes 4, 5, 6, 7, 8, 9 and 10mm; and Torx bit sizes 27, 30, 40, 45, 47, 50, 55 and 60.

Tray is molded of tough ABS plastic to resist oil, grease and solvents. Sizes for each of the SAE, Metric and Torx sockets are pad printed in an oil and grease resistant black ink. Special end tangs on the 9-3/16" x 3-1/4" tray provide a finger hold for picking up tray in tight tool boxes.

Part No. 50000

- Keeps specialized sockets and bits in one place
- Helps technicians keep tool chests organized

Trays designed to help anyone work faster.

Post height on 1/2" drive trays reduced to fit most tool chests

Sizes are marked on posts for instant identification

Edge tangs for easy handling

Post bases are beefed-up to hold sockets more securely

Tough ABS plastic resists gas, oil and abuse
