

Guesswork Not Required

Features Built in Every Model

Visual Optics'

new line of fiber optic inspection scopes gives you the edge on trouble shooting, problem solving, and plain old guesswork. Our scopes incorporate a high resolution-high flex image bundle allowing you to look inside engines, behind walls, into pipes, and many other places without costly demolition or disassembly. We've pushed the envelope on value and innovation to provide an indispensable diagnostic tool for:

- 7400 pixels for clear and detailed images
- Tru-threads for precise focusing
- Superior light output provides optimized viewing
- Fuel and chemical resistant materials
- Water and abrasive resistant shafts
- Industrial grade switches
- Bending radius down to 3 inch
- Close-up viewing - from infinity down to 0.4 inches
- Ruggedized nylon housing construction
- Foam lined storage case

**Automotive / Diesel
Marine / Aviation
Law Enforcement
Renovation
Maintenance
Pest Control
HVAC
...Many More...**

**Available
Shaft
Lengths Up
to 96"**

In this fast paced world, Visual Optics recognized the need for a high performance - high quality inspection scope. We've engineered and manufacture a rugged tool affordable for the everyday technician and tradesperson. The amount of time saved in troubleshooting and problem-solving will make you more productive and profitable than ever before.

Designed, Engineered, and Manufactured in the USA

Visual Optics Offers a Scope for Your Particular Requirements

Technical Specifications

Model	Internal Light	Shaft - inches(mm)	Batteries
VO24-6H	Halogen	24" L .23" (5.8)Dia.	Lithium -223
VO36-6H	Halogen	36" L .23" (5.8)Dia.	Lithium -223
VO24-10WW	Dual White LED	24" L .42" (10)Dia.	4 x AA
VO36-10WW	Dual White LED	36" L .42" (10)Dia.	4 x AA
VT24-6FL	Flashlight*	24" L .23" (5.8)Dia.	Flashlight*
VT36-6FL	Flashlight*	36" L .23" (5.8)Dia.	Flashlight*

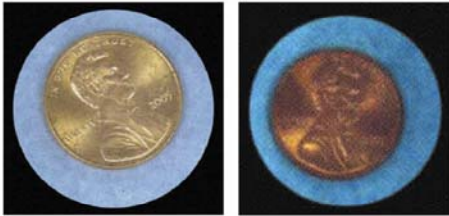

* Requires accessory Flashlight Below

Optical Characteristics

Resolution - 7400 pixels
Field of view - 48 degrees
Minimum focus distance - 0.4 inches

Compare Image Quality

Image quality is dependant on pixel count and good lighting. Compare the detail revealed through our scopes on left to a competing fiberscope on the right.

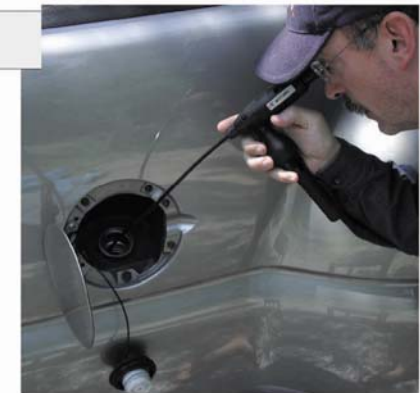

Accessories:

5.8mm	10mm	Description
MIR-6	MIR-10	90° View Mirror
MAG-6	MAG-10	Magnet Clip - 1/4 lb. Pull
VO-1	N/A	Halogen Lamp for VOXX-6H
85001	N/A	Flashlight - VT Model Only
